2012-13 Catalog

The Simtech Sights & Sounds Series

The programs your child needs to start using the computer as early as 9 months old. Musical themes and colorful animated activities provide cause and effect play and early switch training. Three separate switch modes teach momentary, timed and latching switch activation.

The Sights & Sounds series works with a mouse, keyboard, touchscreen or switches. Keyboard and touch screen act like a switch.

Sold separately in sets of 3 programs or in a money-saving "Sights & Sounds Complete" bundle.

Sights & Sounds Complete

#2150 for Mac and Windows **\$100.00**

Sights & Sounds Complete 5-pack

#2151 for 5 computers **\$400.00**

**Specially Priced
Bundle
save \$20**

Cause & Effect Sights & Sounds

The program that started the Sights & Sounds series, and the most popular one. Includes Flowers, Fireworks and Lines & Designs.

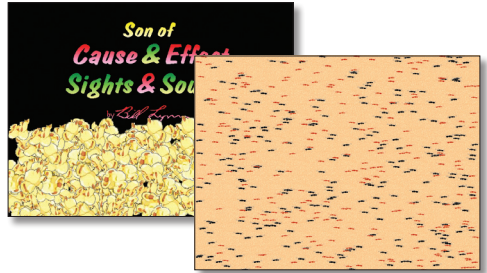

Cause & Effect Sights & Sounds

#2100 for Mac and Windows **\$30.00**

Sights & Sounds 5-pack

#2101 for 5 computers **\$120.00**

Son of Cause & Effect Sights & Sounds

Just when you thought it was safe to turn on your computer, along comes another in the series. Includes Popcorn, Ants and Splotch.

Son of Cause & Effect Sights & Sounds

#2120 for Mac and Windows **\$30.00**

Son of Sights & Sounds 5-pack

#2121 for 5 computers **\$120.00**

More Cause & Effect Sights & Sounds

You asked us for more Sights & Sounds activities, and here they are. Includes Splatter, Under the Sea and Space Rings.

More Cause & Effect Sights & Sounds

#2110 for Mac and Windows **\$30.00**

More Sights & Sounds 5-pack

#2111 for 5 computers **\$120.00**

Revenge of Cause & Effect Sights & Sounds

Somebody stop Bill Lynn before he creates another Sights & Sounds program! Includes Orbs, Cars and Kaleido-Wheel.

Revenge of Sights & Sounds

#2130 for Mac and Windows **\$30.00**

Revenge of Sights & Sounds 5-pack

#2131 for 5 computers **\$120.00**

The Simtech Collection for Preschoolers

Several programs especially suited for young or developmentally delayed children. Activities for training cause and effect, step scanning, auto-scanning and reaction time.

All programs available separately or in the Preschoolers Collection, which includes:

- Frog & Fly
- The Picasso Series (4 programs)
- Scan & Match volumes 1 - 3
- Switch Kids 3.0

**Specially
Priced Bundle**

Simtech Collection for Preschoolers

#2221 for 5 computers **\$400.00**

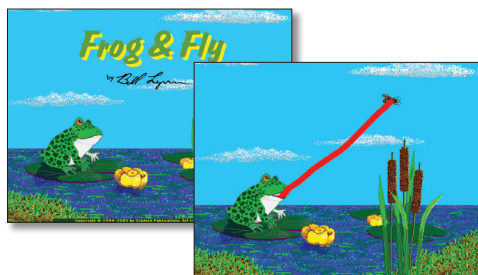

Simtech for Preschoolers Upgrade

#2720 to version 2.7 **\$50.00**

Proof of purchase required

Frog & Fly

One of Simtech's all-time best sellers. Frog & Fly features brightly colored graphics with delightful animation and sometimes hilarious sound effects (I'll bet you didn't know that frogs could burp - or worse).

Four switch training activities help teach cause and effect, two-switch step scanning, auto-scanning and reaction time. A hilarious and effective switch training program.

Switch Kids 3.0

Join the Switch Kids in this trio of cause and effect switch training activities. Version 3.0 adds even more fun using mouse, touch screen or up to 4 switches (see back cover for details).

Version 3.0 is also available for the **iPad!**

Picasso Series

This bundle combines our One Switch Picasso Volumes 1 and 2 and our Scanning Picasso Volumes 1 and 2 on one CD for switch training with an artistic theme.

Each volume of One Switch Picasso features four cause and effect activities for coloring pictures. Scanning Picasso introduces step scanning and auto-scanning. Features cute art, music and animation.

Scan & Match Volumes 1 - 3

The Simtech Collection for Preschoolers contains the first 3 volumes of our Scan & Match series (see page 5 for full version).

Frog & Fly

#2000 for Mac and Windows **\$30.00**

Frog & Fly 5-pack

#2001 for 5 computers **\$120.00**

Switch Kids 3.0

Picasso Series 5-pack

#2061 for 5 computers **\$120.00**

The Simtech Collection for Teens

Several programs especially suited for teens and developmentally delayed adults. Activities for training cause and effect, step scanning, auto-scanning and reaction time.

All programs available separately or in the Teens Collection, which includes:

- Switch Wars • Switch Arcade
- Spider Maze • Scan & Match volumes 4 - 6

**Specially
Priced Bundle**

#2210 for Mac and Windows **\$100.00**

Simtech for Teens 5-pack

#2211 for 5 computers **\$400.00**

Simtech for Teens Upgrade

#2710 to version 2.6 **\$50.00**
Proof of purchase required

Switch Wars

In this, Simtech's best selling single program, alien spacecraft have invaded our galaxy and the only thing that can save us is your switch. This exciting arcade-style game features four activities designed to teach cause and effect, step scanning, auto-scanning and reaction time. Great for older students who cannot control standard or adapted video games.

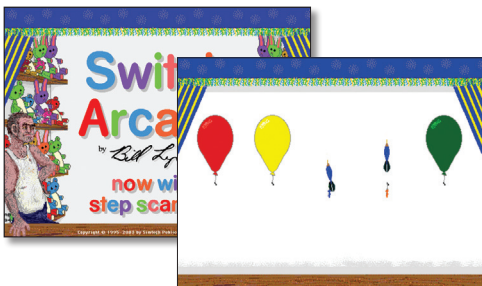

Blast the alien spaceships before they can conquer the Earth!

See our YouTube demo of Switch Wars online at www.marblesoft.com

Switch Arcade

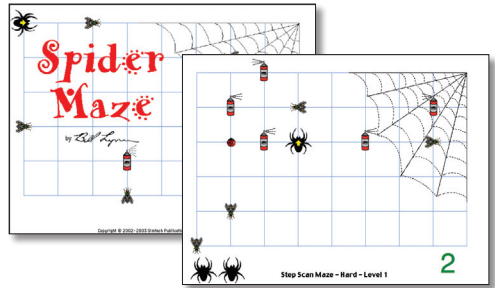

Practice cause and effect, step scanning and auto-scanning with all the fun of a carnival midway right on your computer screen. Experience the thrill of the shooting gallery, toss darts at balloons and throw baseballs at stacks of fine china. What could be more fun than breaking stuff?

Colorful graphics, animation and sound add to the appeal of this popular program.

Spider Maze

If you thought only frogs ate flies, think again. Look out! Here comes Spider Maze. Help the spider gobble up the flies caught in his web. But watch out! Only the ladybug can protect the spider from the dreaded cans of bug spray.

This exciting game is fun for all ages and helps teach cause and effect, step scanning and auto-scanning.

Scan & Match Volumes 4 - 6

The Simtech Collection for Teens contains the last 3 volumes of our Scan & Match series (see page 5 for full version).

Switch Wars

#2030 for Mac and Windows **\$30.00**

Switch Wars 5-pack

#2031 for 5 computers **\$120.00**

Switch Arcade

Spider Maze 5-pack

#2041 for 5 computers **\$120.00**

Super Switch Puzzles

Students learn switch use and scanning in a format resembling a jigsaw puzzle. Use any of the several dozen puzzle pictures included with the program or load your own pictures.

Access the 5, 10 or 15-piece puzzles in three ways - single switch cause and effect, two switch step scanning and single switch auto-scanning.

Super Switch Puzzles

#2050 for Mac and Windows **\$30.00**

Switch Puzzles 5-pack

#2051 for 5 computers **\$120.00**

Scan & Match Series

Students select matching objects using mouse, touch screen, or switches. Each activity features beautiful graphics and digitized sound. Performance data is provided at the end of each activity. Get all six volumes of Scan & Match on one CD at an incredible price!

The 6 volumes include these subjects:

- 1: Flowers, candy and puppies and kittens
- 2: Insects, dinosaurs and cars and trucks
- 3: Babies, critters and toys
- 4: Breakfast and lunch, dinner and snacks
- 5: Womens wear, mens wear and grooming
- 6: People, places and signs

Scan & Match Series

#2070 for Mac and Windows **\$40.00**

Scan & Match 5-pack

#2071 for 5 computers **\$160.00**

The Simtech Single Switch Collection

Switch training has never been this fun! Twenty one Simtech programs for people of all ages. Activities for training cause and effect, step scanning, auto-scanning and reaction time. This GIGANTIC bundle includes:

- Frog & Fly
- Switch Kids 3.0
- Switch Wars
- Switch Arcade
- Spider Maze
- Super Switch Puzzles
- Picasso Series (4 programs)
- Sights & Sounds Series (4 programs)
- Scan & Match Series (6 programs)

...plus a free bonus program

This collection is what you need for users from the age of 9 months until they are ready for pre-reading and early mathematics. It's the product of choice for young switch users!

The Simtech Literacy Bundle

Simtech's three early literacy programs, "Everybody Has Feet", "Sharon Won't Share", and "I Hate Peas" are available separately or all on one CD at a very special price.

In "Sing-Along" mode the player learns to start and stop the music and animation while they sing along. In "Explore-A-Story" mode the player explores and controls the story as it is read aloud, either word-by-word or line-by-line.

Stories can be using text or Picture Communication Symbols. Each story includes printable PDF story books, coloring books and sheet music.

Works with mouse, touch screen or up to 3 switches.

Everybody Has Feet

**EVERYBODY
HAS FEET**

by Bill Lynn

Illustrated by Guy Smalley

The original program in the literacy series, "Everybody Has Feet" is fully accessible using the mouse, touch screen or switches.

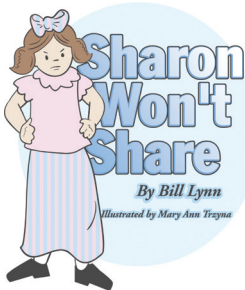

This catchy tune will remain stuck in your head for weeks.

Daddy has feet.

Mommy has feet.

Everybody has feet.

**Sharon
Won't
Share**

By Bill Lynn
Illustrated by Mary Ann Treynor

Sharon Won't Share

Sharon likes to play with her blocks and her drum, but she doesn't like to share. "Sharon Won't Share" is the

second in Simtech's line of accessible early literacy software. "Sharon Won't Share" features a compelling song where Sharon learns about the consequences of not sharing.

Will Sharon do the right thing?

I Hate Peas

Bill Lynn's back from retirement with the third installment in the Simtech Literacy Series. "I Hate Peas" features another terrific sing-a-long story and a couple of new switch modes for training and play.

i Hate Peas.

Story by Bill Lynn

Music by "Bongo" Barry Bernstein

Illustrated by M.A. Treynor (She hates peas too.)

Three cute kids will eat anything you put on their plate - except peas!

EARLY LEARNING I

Early Learning I, our popular and award-winning title, is widely acclaimed as one of the *BEST EDUCATIONAL PROGRAMS EVER* for students with disabilities. Dozens of options allow the teacher to tailor the program to any student's needs.

Early Learning I includes built-in support for all the most popular input devices, including keyboard, mouse, touchscreen, IntelliKeys and single- or dual-switch scanning.

Early Learning I contains these 4 activities:

Matching Colors✓

Teaches recognition, identification and matching of basic colors and colored pictures.

- Teacher selects from 4 to 12 colors to practice
- Color pictures may be substituted for standard color "blocks"
- Five levels of difficulty including cause and effect, identification and matching

Learning Shapes✓

Sight and sound help the students learn to identify 12 basic shapes.

- Teacher selects from 4 to 12 shapes to practice
- Color pictures may be substituted for standard shapes
- Five levels of difficulty including cause and effect, identification and matching

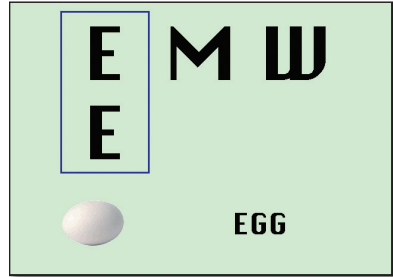

Counting Numbers✓

Teaches recognition of numbers and counting, starting with matching a given number and advancing to counting random objects scattered about the screen.

- Practices counting numbers from 1 to 20
- Uses color shapes or icons for counting
- Seven levels of difficulty

Letter Match✓

Students learn the alphabet in both upper and lower case.

- Teaches letters from A to Z
- Teacher selects which letters will be practiced
- Color pictures can be used for reinforcement
- Five levels of difficulty

Early Learning I features:

- Large, clear, simple graphics
- Multiple levels of difficulty
- 6 ways of single- or dual-switch scanning, including step scanning
- Special prompts for blind students
- Teacher controls prompting and reinforcement
- Records and reports student scores
- Cognitive age 2 to 5

MONEY SKILLS

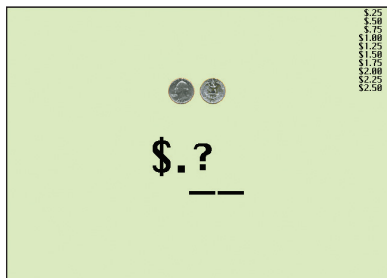

Money Skills teaches students how to count money and make change using all the most popular input devices, including keyboard, mouse, touch screen, IntelliKeys and single- or dual-switch scanning.

Five activities and dozens of difficulty levels and teacher options make this program customizable for any student. Options include many ways of controlling the appearance and organization of the problems, how prompting and reinforcement is made, and some activity-specific options such as whether to require specific dollar amounts or to use the "next highest dollar" method.

Features:

- Teaches American, Canadian, European, British and Australian currency
- Uses clear, realistic pictures of the money
- Fulfills important math standards such as addition and subtraction, decimal notation and currency symbols
- Records and reports student scores
- Cognitive age 4 to 7

Coins and Bills

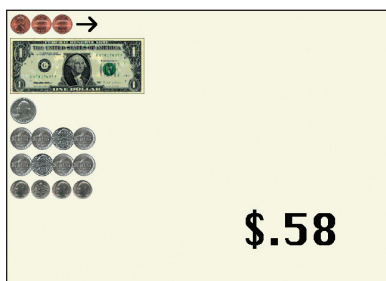

Teaches counting money by denomination. Number key helps the student count. Eighteen levels of difficulty.

Counting Money

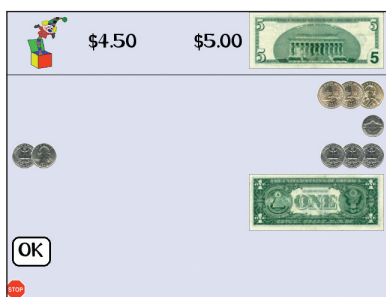

Students learn to count money of mixed denomination. Money can be randomized or sorted by denomination for easier counting. Fifteen levels of difficulty.

Making Change

Students select the coins and bills needed to match a given dollar amount. Nine levels of difficulty.

How Much Change?

Students are given an item to buy and money to buy it. The students then calculate how much change is received. Nine levels of difficulty.

The Marblesoft Store

Teaches money and saving in a store setting. Students take money from a piggy bank to make purchases. The better the item, the more you have to save. Four levels of difficulty.

EARLY MATH SKILLS

Early Math Skills teaches elementary math skills, including addition, subtraction, number sequencing and comparison of numbers from 1 to 20. It supports all the most popular input devices, including keyboard, mouse, touch screen, IntelliKeys and single- or dual-switch scanning.

Dozens of difficulty levels and teacher options make this program customizable for any student. Options include many ways of controlling the problems, prompting and reinforcement, rate of advancement, and six different ways of scanning. Built-in system for recording and reporting student scores.

Includes these seven activities:

- Early Addition I and Early Addition II
- Sequencing Up and Sequencing Down
- Early Subtraction I and Early Subtraction II
- More Than/Less Than

$$2 + 2 = 4$$

The Graphic Speller

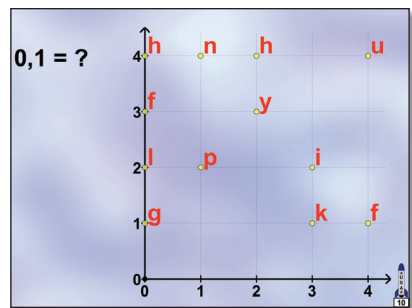

The Graphic Speller teaches graphing skills by having the student spell out words. A set of letters is placed on a number line or graph. The student plots the given coordinates to find each letter in turn, spelling out a word.

The program uses a girl's voice to prompt, reward and reinforce the student. Our "sassy speech" option makes learning even more fun! Note: This program does not teach spelling. The Graphic Speller is a graphing program that uses spelling for reinforcement.

Features:

- Teaches number lines in both horizontal and vertical axes, using positive and negative numbers
- Teaches two-axis graphs using positive and negative numbers
- Scan by letter or by row/column
- Uses uppercase or lowercase letters
- Teacher has complete control of program colors, prompting and reinforcement
- Cognitive age 6 to 9

The Graphic Speller works with keyboard, mouse, touch screen, track ball or up to three switches. The program has 9 levels of difficulty and dozens of options for teacher control.

The Graphic Speller

#0500 for Mac and Windows **\$39.00**

The Graphic Speller 5-pack

#0501 for 5 computers **\$149.00**

THE EARLY LEARNING SUITE

The Early Learning Suite contains 17 popular activities from Early Learning I, Money Skills, Early Math Skills and the Graphic Speller.

This software takes your students from identifying colors up through subtraction and making change. Your children won't be outgrowing this one in six months!

Features:

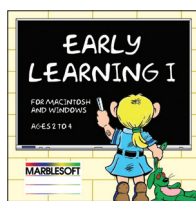

- Large, clear, simple graphics
- Multiple levels of difficulty
- 6 ways of single- or dual-switch scanning, including step scanning
- Teacher controls prompting and reinforcement
- Records and reports student scores
- Cognitive age 2 to 7

The Early Learning Suite contains these titles from the Early Learning Series...

Potato Face

See our YouTube demos of Potato Face online at www.marblesoft.com

Six activities allow the child to play and work with faces, facial expressions and appearance. Activities range from cause and effect to matching thousands of wacky combinations.

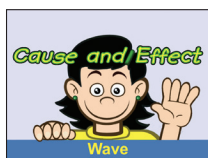

Potato Face works with keyboard, mouse, touch screen, track ball or up to three switches. Players make simple choices to control the program and explore, match or play. Includes dozens of options for teacher control, including a variety of input and scanning options.

A great product to grow with a student from simple cause and effect, through switch training and scanning and on up to matching! Includes PDF coloring book and communication board.

Potato Face contains the following six laugh-provoking activities:

Cause and Effect✓

Use a key, button or switch to scroll through fun facial expressions and animations. A second switch repeats.

Make a Face✓

Experiment with skin color, hair, eyes, noses and mouths to make the perfect face with a simple, fun interface.

Funny Face✓

A new random feature is added every time the switch is pressed. MILLIONS of random combinations can be created!

My Face✓

Make your own face, a friend's face, a teacher's face, or lots of other faces you know.

Potato Face✓

Build a face from dozens of playfully illustrated parts in this hilarious adaptation of a classic game.

Face to Face✓

Make your face the same as a given face by changing parts until the two faces match.

Koppy Kattz

Marblesoft's latest creation is a fun memory game for players from 3 to adult. Cause and effect and training activities are suitable for any child. In full "Koppy Katt" mode the game will challenge any player, and a multi-player game can be used with any number of players.

In the cause and effect activity the player just experiments with the buttons. Prompting and reinforcement can be done with a synthesizer, piano, drums or a contextual vocal prompt.

In the three memory activities, an ever-increasing sequence is played which the player has to match. Play the game with colored buttons, dice, numbers or cats. Lots of options for prompting, reinforcement and difficulty.

Koppy Kattz works with a mouse, touch screen, keyboard or up to 6 switches.

Includes versions in English, Spanish, French, German and Dutch.

Single Switch Games 2

We've taken some games similar to the ones you enjoyed as a kid and made them work just right for single switch users. Your kids will love them! Adults, too.

We've even included games for 2 single switch players! Players compete for points, but must cooperate to solve each level.

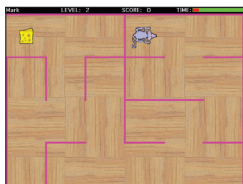

All games include normal, easy and cause and effect modes for maximum playability.

Single Switch Games 2 contains the following ten games for single-switch players:

Single Switch Maze

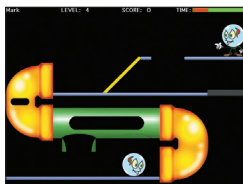

A Frog's Life

Can you find your way through the maze before time runs out? If you do, you get all the food.

Mr. Marblehead

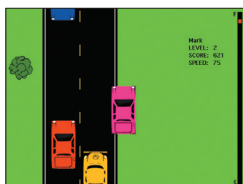

Mr. Marblehead rolls through maze after maze of pipes, platforms, stairs, trap doors and other wacky devices. Help him avoid the pitfalls and make it safely to the end.

Switching Lanes

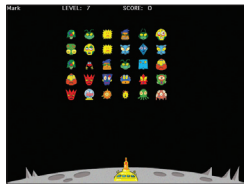

Passing Lane

You're cruising the highway in a high-speed race against the clock. The farther you travel, the faster you go!

Switch Invaders

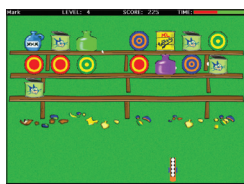

Strange and colorful aliens attack! Now you've made them mad!

Slingshot Gallery

Scurry

Run back and forth across the screen while taking aim at bottles, plates and cans.

Single Switch Solitaire

A classic solitaire game fully playable with just one switch!

Concentrate

A classic memory game.

... and these four great games for two single-switch players:

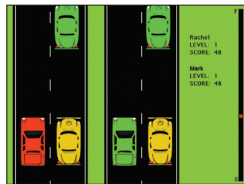

Dual Switch Invaders

Dueling Slingshots

Scurry Too

The Duel

Games for two single-switch users. Players compete for points, but have to cooperate to finish each level.

Safe at Last!

You asked for it and we made it! Finally, a game for high-functioning switch users.

Marblesoft took a classic logic game and adapted it specially for players with disabilities. Players reveal squares on a grid, using deductive reasoning to determine which squares are safe and which ones conceal hidden dangers.

Safe at Last! can be used with a mouse, keyboard or touch screen, or with one, two or three switches in a special scanning mode.

Features:

- Multiple levels of difficulty from 12 squares up to hundreds
- Puzzles are scaled to fill the screen, making for higher visibility on lower levels
- Players can choose to advance after clearing the field or to stay at the current level
- Intelligent scanning makes the game faster and less frustrating for single-switch users
- English and Spanish versions on one CD
- Cognitive age 8 to adult

Click to Read

Marblesoft and AIMEE Solutions are pleased to announce their collaboration on a new series of early literacy programs for children with special needs. We took the AIMEE Solutions series of fun reading activities and added Marblesoft's flair for creating great, easy-to-use accessible programs. The result is the Click To Read series.

Each interesting and entertaining story uses SymbolStix to build vocabulary, encourage early literacy and support comprehension.

Students can hear the story read to them in a cause and effect mode, expand meaning of text and picture symbols in an interactive mode, and can then demonstrate their understanding by arranging the symbols to tell the story in any of three reading levels.

Each story also comes with three Show What You Know activities - Bingo, Concentration and Vocabulary Practice. Students demonstrate their understanding of the core vocabulary by using the symbols to play at different reading levels.

Program Features:

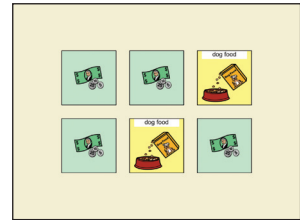

- Color-coded picture communication symbols facilitate learning
- Three reading levels
- Works with mouse, touch screen or switches
- Lots of clear speech prompting, correction and reinforcement in male or female voice

Interactive Mode

Bingo

Concentration

Click to Read: Life Skills

The first in the series is Click to Read: Life Skills, consisting of four related stories that teach daily living skills:

- Ben Goes Shopping
- Community Signs
- How Much Is It Worth?
- What Time Is It?

Switch Kick-Start for Kids

The Switch Kick-Start for Kids is the hardware and software you need to allow a child to start using the computer with switches.

**Specially Priced Bundle
save \$99.95!**

The Switch Kick-Start for Kids includes the *Simtech Switch Hits*, five of our best-selling programs for beginning switch users, plus an ATEC switch interface and two Ultra Light HD switches (see page 21). Install the software, plug in the switches, and let the fun begin!

The *Simtech Switch Hits* includes the following five titles by author and Simtech creator Bill Lynn:

- Cause & Effect Sights & Sounds (see page 2)
- The Picasso Series (4 programs - see page 3)
- Frog & Fly (see page 3)
- Switch Kids 3.0 (see back cover)
- Switch Wars (see page 4)

These programs are the first programs a new computer user will need, beginning as early as 9 months old. They cover cause and effect, switch training and scanning.

Switch Kick-Start for Kids

#9999 for Mac and Windows

\$169.00

Switch Ensemble

Switch Ensemble enables children to actively participate in creative musical activities using your existing adaptive equipment and switches. With over 90 songs and activities, your students will sound great the first time they use the program.

Great for switch user concerts!

Switch Jam

An awesome cooperative music application that enables kids of all ages to use their switches or Intellikeys keyboard to jam together in a variety of contemporary music styles; Rock, Hip Hop, Funk, Latin & Jazz.

No matter what their abilities, your kids will sound good the first time they use Switch Jam. Simply select one of the ten songs and start jamming!

No musical expertise is required!

Super Switch Hitter

Super Switch Hitter is an exciting new switch-accessible baseball game for one to six players. With full arcade-style game play, animation, graphics, music and sound and with 5 different playing modes, Super Switch Hitter is a delightfully engaging and effective switch training application.

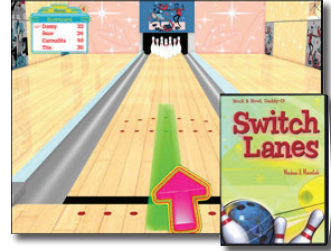

Absolute fun! Suitable for all ages.

Features

- 5 play modes from very simple single switch access to multiple switches, auto-scanning and two switch step scanning.
- Students can play on opposing teams or on the same team.

- Fully customizable: Ball size, ball speed, optional auto-fielding and a "hover ball" feature (for errorless batting)

Switch Lanes

Rock and bowl, Daddy-O!

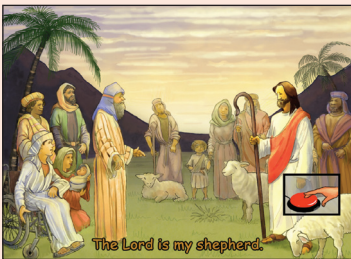

Switch Lanes is a new, pin smashing arcade game for 1 to 5 players that simulates a retro 50's era bowling alley; complete with realistic sights and sounds. Break out the switches and let the good times roll. No bowling shoes required!

Suitable for all ages and abilities.

Marblesoft is pleased to announce we are carrying all SoftTouch software starting in 2012. Please visit our Web site for details: www.marblesoft.com

All switches
require a switch interface
(shown on this page)

Access Switches

The Access Switch is a durable switch made of high impact plastic. It is 2.5" in diameter and can be activated by a light touch. The switch gives an audible click for feedback.

Each switch comes with a clear plastic cover. You can place photos, symbols or images under the cover as a label.

Access Switch

#9501	Red	\$25.00
#9502	Blue	\$25.00
#9503	Yellow	\$25.00
#9504	Green	\$25.00
#9500	Set of 4 colors	\$79.00

Ultra Light 1 HD

The Ultra Light switch is a very small (smaller than your thumb) switch that requires very little pressure and gives great tactile and audible feedback. It is easily mountable within reach of a finger, and its small size and low price let you mount several switches within easy reach of one or more fingers. Comes with 5 interchangeable color panels.

Ultra Light 1 HD		
#9900		\$20.00
Ultra Light 5-pack		
#9901	5 switches	\$90.00

Switch Interface Pro 6.0

The Don Johnston Switch Interface Pro 6.0 is the industry standard because no setup software is required! Connect up to 5 standard switches to get programs up and running in seconds.

Features

- Connects to USB port
- 2.5" x 2.5" dimensions
- Mac and Windows compatible

The Interface Pro 6.0 has more functionality than other interfaces and is even easier to use! Just push a button to change function sets. Bright LEDs tell which functions are active.

Switch Interface Pro 6.0

#9600 Mac/Win \$94.99

StealthSwitch AT

The StealthSwitch AT is a programmable switch interface that recognizes when you change programs and instantly reconfigures itself to the correct settings for that program.

Once the StealthSwitch has been configured, you can move it from computer to computer, even from Mac to PC, and it will remember the correct settings.

Features

- AT-5 supports up to 5 switches
- AT-10 supports up to 10 switches
- Easy, intuitive configuration
- Unlimited number of programs.

Stealth Switch AT-5

#9800 Mac/Win \$79.00

Stealth Switch AT-10

#9801 Mac/Win \$99.00

ATEC Switch Interface

The latest interface from ATEC raises the bar on price and performance. It allows connection of up to 5 switches to a USB port, and is the lowest-priced of all the standard interfaces. It even remembers your settings when you turn the computer off!

In addition to the usual settings found on other devices, the ATEC Computer Switch Interface adds a setting for mouse control. The user can use 5 switches to move the mouse up, down, left, right and click.

ATEC Switch Interface

#9920 Mac/Win \$69.95

Blue2 Bluetooth Switch

AbleNet's new Blue2 dual switch provides access to compatible iPhone, iPad, iPod Touch or desktop applications via Bluetooth wireless technology. Simply sync the switch with your favorite device. Blue2 supports both single and dual switch access through direct access using the two built-in switches, or plug in your favorite switches into the available ports to fit your individual needs.

Ships with a USB Bluetooth dongle for wireless use with non-Bluetooth computers.

Blue2 Bluetooth Switch

#9951 Mac/Win/iPad \$149.00

Dear Marblesoft-Simtech Customer:

Marblesoft has provided great special needs software at a great price since 1983. You'll never find us inflating our prices and then offering sales to get your attention. We offer the same low price every day of the year. These tough economic times have our over-priced competitors announcing perpetual sales, but we priced our software right from the start, as you'll see. We give you the best value every day.

The Marblesoft-Simtech Team

Switch Kids 3.0

An all-new version of Simtech's best-selling switch program for Mac and Windows. Tons of fun for cause and effect, switch training, and multiple-switch play, including what we call "cause and effect with a goal". Works with mouse, touch screen, keyboard or up to 4 switches.

Additions to the new version include:

- Runs full screen to fill any size monitor
- Supports up to 4 switches for true multi-switch play
- Change background colors
- 5 new bubble gum flavors or let the computer pick at random
- Play with twins or triplets and learn their names

Switch Kids has always been gobs of great fun, and now it's a riot! You can even upgrade from your existing version for a ridiculous low price (requires proof of purchase).

Runs on Mac 10.4 or newer, Windows XP or newer, and iPad.

Switch Kids 3.0
